NINE 2FIVE MORE THAN A DJ

1. Who are we

Nine 2 Five is the unique combination of an experienced **all-round DJ** and a live **electronic violinist**. With energetic sets, a great feel for the atmosphere and a personal approach, we make every wedding party unforgettable. From hits to classics, rock, disco, EDM, techno, drum and bass, or simply songs everyone can sing along to? Our musical mix keeps everyone on the dance floor from the first minute to the last. Our violinist adds an exclusive layer to your evening, making every set a **unique experience**.

We have been performing on stage for ten years and have now played at **more than 700 parties** in Belgium, the Netherlands, France, Germany, Spain and England. From summer after-work events to mainstage festival sets, we turn every set into an unforgettable experience!

2. Our approach

At Nine 2 Five, we believe that every party starts with a **good connection**. That is why we always start with a no-obligation introduction call where we discuss what is important to you in terms of atmosphere, style and music. Afterwards, we remain **easy to reach** and guide you through all the musical and technical preparations. With more than 50 weddings of experience, we know what we are talking about.

You send us a list of your favourite songs and we make sure to create the **right vibe** on the night itself. Still have requests during the dance party? We will easily mix them into our set! Unless they come from your drunk uncle. We know what we are doing and what works, *trust us*!

3. Our packages

We offer three approaches:

- **Guest set**
  A 1.5 to 2-hour DJ set with live violin. Ideal as an opener to get everyone on the dance floor straight away!
- **All night long**
  An all-round DJ with live violin for the entire evening, fully adapted to your wishes. Want to get the atmosphere going during dinner as well? We can add energetic live interludes between the courses (extra option)!
- **All-in party pack**
  No worries, we take care of everything! In addition to an unforgettable musical experience, we also provide the lighting and sound system. We work with high-quality DJ equipment, lighting and sound systems, which can be added à la carte. If there are any specific technical requirements, we can call on one of our trusted partners.

Everything is offered at one transparent, all-inclusive price.
